"The Ailon Nova Guard, the Nikto Morgukai and the Seyugi Dervishes have all elevated combat into an art form."
—Darth Bane

Brenhar Cotroo Khan was a member of an ancient order of Force-using assassins, the Seyugi Dervishes. Known as **"The Red Ghost"**, during his active time in The Old Republic Era, he was a key player in the wars between the Sith and the Jedi serving as a shadow killer and sometimes a double agent for both sides. Because of this, his organization was put in great danger, with which as a way to preserve their cult from being destroyed by the Jedi Order, several of its members, including **Brenhar**, were frozen in carbonite underneath their hidden base on Recopia waiting for an opportunity to return to the galaxy.
